M MATT

Matt surfaces feature a non-reflective finish, offering a contemporary and understated look. These laminates provide a smooth and soft texture, minimizing glare and fingerprints, making them a popular choice for those seeking a more subdued and elegant design.

Quality, Aesthetics, and Durability in Harmony:

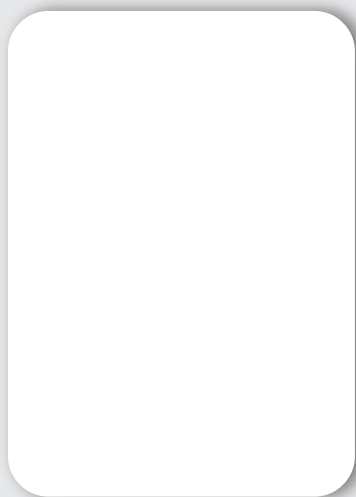

At ARSİT, we place a premium on the seamless blend of quality, aesthetics, and durability in our countertops. Each product is meticulously crafted to surpass the highest industry standards. Choose from our diverse range of countertop materials, including stunning solid decors, elegant marble, and wood-inspired surfaces, all designed to elevate both beauty and functionality.

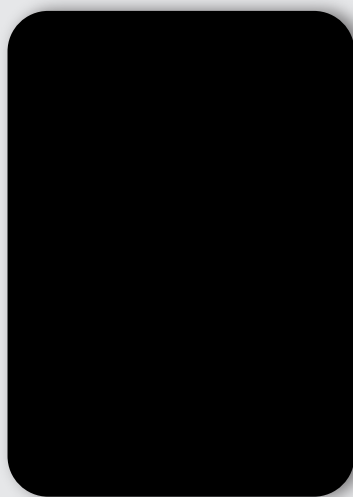

C

CERAMIC

Ceramic surfaces mimic the appearance of ceramic materials, providing a durable and versatile option for kitchen worktops. These laminates often showcase realistic textures and patterns, combining the aesthetic appeal of ceramics with the practical benefits of laminate.

ARS 102 C

ARS 106 C

S

STONE

Stone surfaces emulate the authentic texture and appearance of natural stone, providing a classic and enduring aesthetic. These laminates are a popular choice for those seeking the elegance of stone with the practicality and affordability of laminate materials.

NS

NATURAL
STONE

Natural Stone surfaces authentically capture the unique patterns, textures, and colors found in natural stone. These laminates offer an organic feel, bringing the beauty of nature into kitchen designs for a timeless and elegant look.

ARS 515 NS

ARS 518 NS

In addition to worktops, ARSIT offers matching splash back panels and cabinet doors that enhance your kitchen's aesthetic, seamlessly complementing your chosen decors and surfaces to add value.

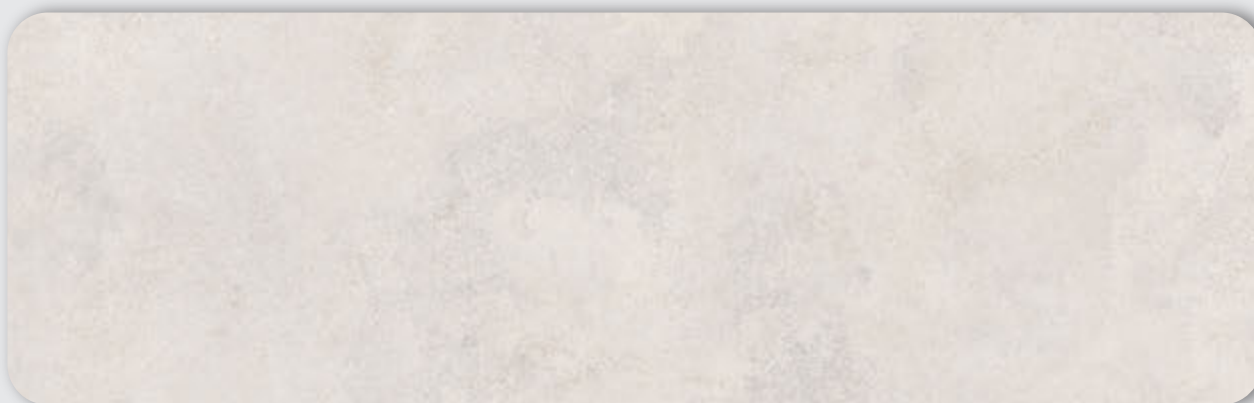

BS

BRIGHT
STONE

Bright Stone surfaces replicate the natural appearance of polished stone with a bright finish. These laminates bring the timeless beauty of stone to kitchen spaces, offering an elegant and luxurious atmosphere with a polished and sophisticated look.

Environmentally Friendly and Sustainable Solutions:

Embracing an eco-friendly ethos, we at ARSiT are committed to environmental responsibility. Our practices prioritize nature and forests, employing energy-saving methods to minimize our ecological footprint. Explore our range of countertop materials, thoughtfully curated to enhance aesthetics and environmental consciousness.

Resistance to impact

The durability of an ARSiT worktop is essentially determined by the laminate properties such as abrasion, impact and scratch resistance. Each HPL surface has overlay layer for decor and impact durability.

Easy cleaning and maintenance

Due to its resistant, hygienic and dense surface, ARSiT worktops do not need any special maintenance. Surface cleaning is so simple and easy.

Anti-bacterial surfaces

Each top is coated with 99.99% anti-bacterial protection for food safety.

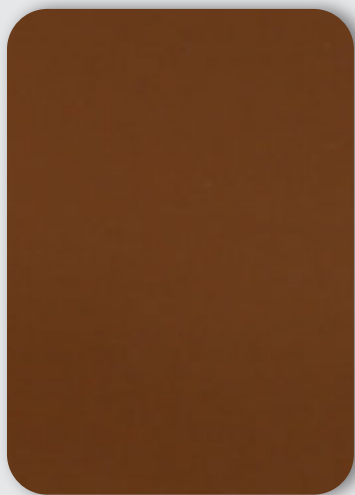

Competitive offers

ARSiT stands out by offering the most competitive deals when compared to other options.

LEATHER

Leather surfaces showcase the rich texture and luxurious appeal of genuine leather, seamlessly integrating refinement into interior spaces. While the tactile quality of leather evokes a sense of opulence and warmth, these laminates contribute to an elegant aesthetic that complements both modern and traditional design styles.

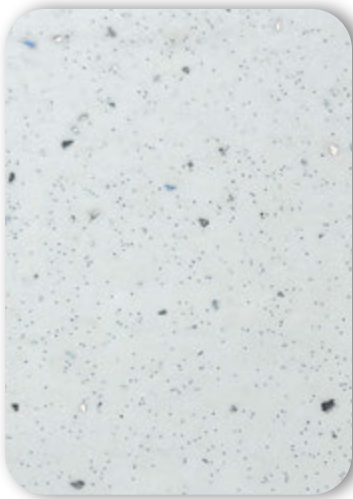

ARS 104 L

MG

METALLIC GLOSS

Metallic Gloss surfaces combine the reflective qualities of gloss with metallic sparks. These laminates often feature a polished and shiny surface with pearly undertones, creating a fusion of contemporary glamour and classic design elements.
